

Lexicography Workshop

7-11 May 2018

5 Day Intense Lexicography Workshop at GALC

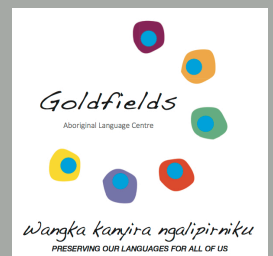

The Goldfields Aboriginal Language Centre is hosting a 5-day lexicography workshop in Kalgoorlie, WA. The workshop will be run by international lexicographers Michael Rundell (MacMillan Dictionary Editor), Vojtěch Kovář and Miloš Jakubíček of Lexicom <https://lexicom.courses>

This intensive lexicography and lexical computing workshop combines practical work and theoretical perspectives on the making of corpus-based dictionaries and training in the software to supports management of corpus data. The workshop topics include lexicography, preparation of material for online dictionaries, the matters around online dictionaries, conversion of Toolbox data into Lexonomy and corpus searching using Sketch Engine software. Bring your own corpus to use in the workshop, if you wish.
